

WE ARE TEMPORARILY CLOSED
UNTIL FURTHER NOTICE

DEAR CLIENTS,

We are forced to close Little Frog again for the second time this year, due to the COVID-19 surge and the State limiting our capacity inside. We cannot stay open and generate enough business at this point anymore. We tried hard, we were so happy to cater to everyone gain. Winter is here, and as far as outside dining, we cannot offer you the right comfort or warmth. Simply said, the investment in building a insulated and heated structure on the street does not make any financial sense right now. We feel it is not safe either. It is therefore impossible at this point to keep our culinary and service standards to the level we set them up to satisfy or clientele.

The plan is to reopen when the City and State allow us to operate at a manageable and profitable capacity to justify serving you again and paying the bills. We will need some government help and your support when back, I know you will be there, as for the federal and local help, we shall see. In our sixth year of business we never expected so much hardship, I feel very sorry for our team and all the great work we all invested at Little Frog.

Stay safe, God bless, we will see you again in 2021.

Sincerely, François Latapie & the LF team.
